B. INTRODUCTION

INTRODUCTION

Taking into consideration the rapid growth of Conferences and Incentives Tourism, the Cyprus Tourism Organization has set the market in question as one of the main target markets in its Strategic Plan for 2003-2010. In achieving the specific aim an action plan has been devised for the development of Conferences and Incentives Tourism.

Conferences and Incentives Tourism is considered to be a highly competitive sector among tourism destinations due to its development prospect and the fact that it appears as a solution to problems such as seasonality, expenditure and repeating tourism. It is therefore essential to estimate the market size for better evaluation of the current situation as well as for a better planning of future actions for the development and promotion of this segment by CTO.

To this end, CMR Cypronetwork has undertaken the task of systematic collection of statistical data on conferences and incentives tourism from all organizations directly involved with this target group during the period of one year (i.e. January – December 2008), according to the instructions and specifications set by CTO. This report is the Final Report being submitted for the Project and refers to all months (i.e. January – December 2008) of the year.

C. EXECUTIVE SUMMARY
